PURE PIZZA PERFECTION.

For simple, delicious and enjoyable outdoor cooking, there's almost nothing better than a perfectly prepared pizza. With the elegantly minimalist Morsø Forno Spin, it's even easier and more satisfying than ever. The rotating pizza stone makes it simple to achieve an evenly baked crust without having to turn the pizza around by hand. And as an oven specially designed for making pizzas, Morsø Forno Spin quickly reaches 400° C, which is optimal for pizza baking.

INTENSE DESIGN. SIZZLING FOOD EXPERIENCES.

Wok food is all about intense heat, aroma and lots of flavour! The sensual pleasure of the sizzling ingredients in the searing wok and the quick movements of sauteing, seasoning and serving is exactly the cooking and culinary experience that the new Morsø Vulcano Wok Burner is designed to give you. With its Nordic design, Morsø Vulcano is a brand-new addition to the well-known Morsø outdoor range, which now also covers Asian cuisine.

WELCOME TO THE WORLD OUTDOORS

Although the word 'innovation' was not coined in Danish until 100 years after Morsø Jernstøberi moulded its first products, it has been a cornerstone of everything we create from the very beginning. For example, in collaboration with other iron foundries, we created the convection principle, which just before the early 1900s set a whole new standard for how efficiently a home could be heated with a tiled stove - and when central heating began to outcompete the tiled stove in the 1950s, the then brand new open fireplace stove created a whole new way to spread warmth and cosiness in Danish homes.

When we launched the first cast iron grill in Denmark, we aimed to enable Danes to enjoy the long summer evenings with extra good food and

cosiness in the garden. Then and now, a summer evening can take many shapes and colours.

From the endlessly warm and cosy - to those days when time or circumstances don't allow for the big guns, but the desire to enjoy life outside with good food is still present.

For just that, we present the brand new Morsø Forno EL Medio, which can be used as a regular grill - both for quick steaks, but also for large pieces of meat that require slow grilling.

Morsø Forno EL Medio is also a multifunctional oven/grill that opens up a whole new world of gastronomic possibilities when you add a roast pan, a pizza stone, a reversible plancha/grill plate or a rotisserie as optional extras to your Morsø Forno

NEW MORSØ FORNO EL MEDIO

If space on the patio is limited or the desire for outdoor cooking is high, Morsø Forno EL Medio is a great choice with many options.

A versatile and unique novelty - Morsø Forno EL Medio can be used as a regular grill - both for quick steaks and for ribs and other large pieces of meat that require slow grilling. But Morsø Forno EL Medio is also a multifunctional oven/grill in every sense of the word, offering a whole new world of grilling possibilities when you add a roast pan, pizza stone, a reversible plancha/grill plate and rotisserie.

Electric and convenient - No more lugging and changing heavy gas bottles! Morsø Forno EL Medio is activated by electricity and easily goes from 50° all the way up to 400°,

resulting in clear grill lines and a good grill crust. If the grill grate is used, some of the juice and fat will hit the grill elements and create the smoke that gives the great barbecue flavour and aroma. The temperature is easily and precisely controlled on a Morsø Forno EL Medio.

Built-in timer - A timer is handy for almost all types of cooking. When baking pizzas, the timer can ensure that the pizzas are baked at the same time, resulting in perfect and even baking. And for dishes that require longer cooking time, the timer is indispensable while other accessories are being prepared. The Roast Pan, Pizza Stone, Plancha/Grill Plate, reversible and Rotisserie are available as optional extras.

MORSØ BALCONE.

More and more people live in blocks of flats, and balconies are popping up everywhere in the cityscape. But living in the city shouldn't mean that you can't have a good outdoor barbecue experience.

Open fires are often prohibited on city balconies, and unless you're the lucky owner of a big balcony, a traditional grill will take up a lot of the scarce outdoor space. With the Morsø Balcone electric grill, we've developed a grill that lets everyone – including city dwellers – enjoy the unique sociable pleasure of an outdoor barbeque. By using electricity rather than coal or gas, and optimising the design for this exact purpose, we've developed the ideal balcony grill with a modern look for a modern lifestyle, combined with the authenticity and honesty that Morsø's grilling products are known for.

PICCOLO

MEDIO

GRANDE

In 1853 the young N.A Christensen left his job as an accountant to start an adventure involving an iron foundry. An adventure which started in a factory building in Nykøbing Mors. Despite tough competition from the foundries in the larger cities, it would turn out that a small collection of smiths, lathe and wood workers, created an icon which managed to reach far beyond the city it was created in. An icon created through innovation, built on design, quality and of great craftsmanship, and which therefore always stand comfortably in any home whether in Denmark or abroad. An icon we all know as Morsø.

By appointment to The Royal Danish Court
